02 — E-COMMERCE EXPERTISE

EVERYTHING BETWEEN THE PRODUCT AND THE PURCHASE.

01 **E-commerce Store Setup & Optimisation**
Structure, navigation, and a homepage that puts the product first.

02 **Product Listing Creation**
Thumbnails, titles, and prices composed to earn the click.

03 **Product Page Design**
Galleries and buy columns that keep the offer in frame.

04 **Conversion Rate Optimisation (CRO)**
Hierarchy and friction rebuilt around how people decide.

05 **Product Photography & Visual Presentation**
Light, crop, and order — so the product looks worth owning.

06 **Promotional Graphics & Advertising Creatives**
One campaign thought, cut for the banner, the square, and the story.

07 **TikTok Shop & Social Commerce**
Vertical product stories built for the shop tab.

08 **E-commerce Content & Product Descriptions**
The material, the use, and the difference, said plainly.

03 — CONCEPT CAMPAIGNS

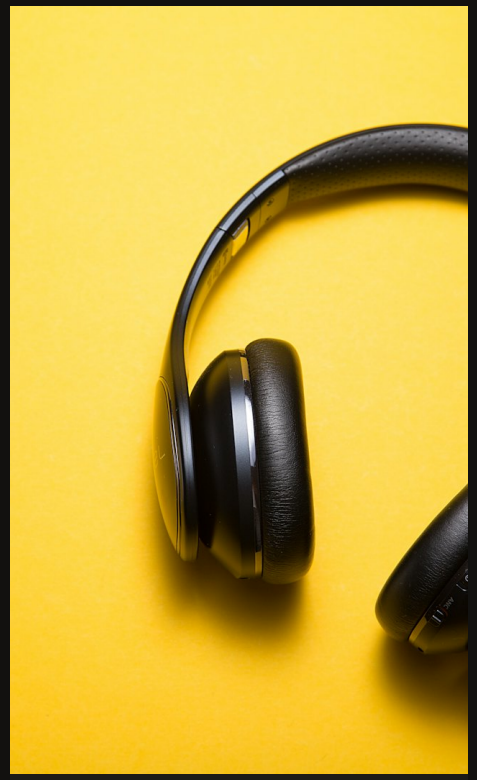

FICTIONAL BRANDS. REAL MERCHANDISING.

05 — MOTION & INTERACTIVE

A STORE SHOULD FEEL ALIVE.

LUNEN

Glass, dew, and hard light. The bottle is the whole advertisement.

VOLTLINE

Yellow does the shouting. Black does the spec.

KILO

Shot like a poster, not a catalogue tile.

FIELDPOST

The ingredient is the hero.

NORTHROOM

The empty space is part of the price.

06 — HOW I WORK

FOUR MOVES, IN ORDER.

01
RESEARCH THE PRODUCT

Who it is for, what it replaces, and the detail a shopper actually uses to decide.

02
DEVELOP THE CREATIVE DIRECTION

A point of view: type, crop, colour, and the line the campaign is willing to repeat.

03
BUILD THE E-COMMERCE EXPERIENCE

Store structure, listings, and product pages composed so the product stays understandable.

04
OPTIMISE FOR SALES

Hierarchy, friction, and the path to purchase, revised once the thing is actually live.

OPTIMISATION MEANS THE STRUCTURE AND THE PRESENTATION. WHAT IT EARNS DEPENDS ON THE PRODUCT, THE OFFER, AND THE TRAFFIC.
